Skills

Javascript | ReactJS | Redux | HTML | CSS | Bootstrap | Git | Github | Node.js | Express | Mustache | MySQL | PostgreSQL | MongoDB | Mongoose | Responsive Web Design | RESTful APIs | Microsoft Office

Technical Experience

The Iron Yard | Durham, NC

May 2017 - August 2017

Front-End Web Developer

The Iron Yard is a 12-week coding bootcamp specializing in highly focused, immersive training centered on language fluency, object-oriented programming, and project-based learning. Developed a full-stack of front-end and back-end technologies with a specialization in ReactJs.

- **BLAMM** - A superhero and villain rental site. [Code](#)
 - Utilized React Routing and Redux to bring together a multi-page product site. Users can login, explore product categories, send feedback and add rentals to their cart.
- **Etsy** - A team project that created a replica of Etsy using ReactJS. [Code](#)
 - A 20 person project divided into smaller teams who were then assigned a page on Etsy to re-create. Using Trello to track progress, my team developed the homepage and navigation bar while taking turns leading the group through task assignment, Git merge conflicts and daily stand-ups.
- **SoundCloud** - A vanilla Javascript project using the SoundCloud API. [Code](#)
 - An app using JavaScript, HTML and CSS that allows you to search, return, and play songs or artist results from a fetch to the SoundCloud API.

Professional Experience

Make-A-Wish Idaho | Boise, ID

November 2015 - November 2016
